

WANGILA W. JOB

Software Engineering & IT Operations Attachee

jobwangila254@gmail.com | +254 700 511 991 / 0105805580 | Nairobi,

Kenya Portfolio: jobw.dev | GitHub: github.com/jobwangila254

PROFESSIONAL SUMMARY

Final year Computer Technology student at The Technical University of Kenya. Specializes in full-stack web and mobile development. Built and deployed a functional maternal healthcare system. Experienced in insurance claims processing, IT support and database management.

Seeking a 3 to 6 month attachment to gain practical experience in software development and IT operations. View my portfolio at jobw.dev.

EDUCATION

Bachelor of Technology in Computer Technology

2019 – 2026

The Technical University of Kenya

Programme extended due to study break.

Kenya Certificate of Secondary Education (KCSE)

2015 – 2018

Maranda High School | Mean Grade: B Plain (69)

WORK EXPERIENCE

Executive Dental Clinic | IT & Technical Support Assistant (Part-time)

2022 – Sep

2024

- Administered local network routing, WiFi troubleshooting, and endpoint software updates across all clinic systems.
- Diagnosed and resolved hardware, software, and connectivity faults across workstations, reducing average operational downtime.
- Maintained office infrastructure, printers, and automated daily backup protocols to protect confidential patient records.
- Managed digital medical insurance portal claims and financial records using clinic ledger software.

TECHNICAL PROJECT

Boresha Mama Final Year Project | Full-Stack Digital Health

github.com/jobwangila254/boresha_mama

- Developed a full-stack digital health platform connecting rural patients, community health volunteers, and facility dashboards.
- Built the mobile client using React Native with an offline-first architecture and synchronized local storage.
- Integrated Africa's Talking API to automate SMS-based pregnancy tracking, deploying over 500 test alerts.
- Designed and tested the backend REST API using Node.js, Express.js, and a PostgreSQL database.

TECHNICAL SKILLS

Languages	Python, JavaScript (Node.js), HTML5, CSS3, Typescript
-----------	---

Frameworks	Flask, Express.js, React.js, React Native
Databases	PostgreSQL, MySQL
Tools	Git, GitHub, Postman, Linux CLI, Android Studio, Africa's Talking API
IT & Networks	LAN/WiFi configuration, router setup, hardware diagnostics, workstation security patching

ATTACHMENT DETAILS

Availability	Immediate
Duration	3 to 6 Months
Objective	To gain hands-on experience in software development and contribute meaningfully to digital innovation initiatives.
